Response to Arguments

1. Applicant's arguments, see Page 1, filed 05/06/2008, with respect to the rejection(s) of claim(s) 1 under Koide have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Suzuki.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Suzuki et al. (US Patent # 5,602,412).

[Claim 1]

Suzuki et al. teaches a method of image enhancement of a sensed image taken with a digital camera (figures 10 and 11), including an auto exposure setting means (29), said method comprising the step of utilizing the auto exposure setting from said auto exposure setting means to process said sensed image to add exposure specific graphics to said image which indicate the exposure settings utilized by the digital camera in taking the sensed image (col. 11 lines 39-65).
